508 Violet Street
Golden CO 80401-6715

January 22, 2010

Mr. McWilliams:

We have been utilizing the Carepoint check in system in our apartments for about four months and find they are performing above our expectations.

The system has more functions than we require at the present, but several additional operations will be added in the future as our needs require.

The Sterling staff personnel involved in the installation and set up performed very professionally and were more than pleasant with our staff and residents. Any communication with Sterling employees has always been enjoyable.

Respectfully,

Joseph Burke
Property Maintenance Director
Allied Jewish Apartments
